

## HBSP Hardstyle Vocal Pack Vol 2 - Lyrics

### 1. The Rave\*

The rave is our religion  
This music is our faith  
We share the same vision  
We dance until we fade

The world is ours to conquer  
United we will stay  
We'll drink to our honour  
And gather every day  
*[predrop]* And party every day

### 2. Season

Welcome to this meeting  
Let's celebrate tonight  
Just live to the fullest  
The lights are shining bright

This is our favourite season  
So great and full of pride  
We're here for a reason  
Let music be your guide

### 3. Trance

As it's getting dark  
And we are partying hard  
Get ready on my mark  
Let's break this place to shards

United we can stand  
And change this grumbling land  
It's only in our hands  
We'll go deeper into trance

### 4. Fathers of Creation\*

Close your eyes  
Can you feel the vibration?  
We fly so high  
Cause we're the fallen generation

Together we rise  
We set the ground foundation  
It's no surprise  
We are the fathers of creation

### **5. Shades**

This is your time  
You're on your prime  
Don't look behind  
Just free your mind

There is nothing you can't do  
So you should never be afraid  
Strive to be the better you  
And never hide behind your shade

### **6. My Time**

I keep my mind busy  
I keep my hands dirty  
I roam the roads, exploring worlds  
And shake the earth beneath me

I've got the world against me  
I've earned much trust and lost it  
This is my time now  
And I won't let you stop me.

### **7. The Mission**

A few more hours left  
And the darkness fades away  
For many decades long  
we prepare for this day

The mission that we share  
is about to succeed  
So put your hands up  
And fulfil your deed (HEY)

### **8. Back Out**

We make the ground shake  
We dance until we fade  
Nothing can stop us now  
We have the higher ground

This music is our life  
Our spirit and our light  
It makes us all proud  
So join us or back out

### **9. The Underground\***

Wake the fuck up freak  
This is the ultrasound  
Don't let your face sink deep  
And look a bit around

Your music is so vastly weak  
It's worth to go down  
This is our rise and our peak  
We are the underground.

### **10. The Signal**

Escape reality  
Lost in our memory  
Defy the gravity  
Release our energy

This is our moment  
This is the time  
Get ready for the signal  
tonight we are on our prime

### **11. Your Future**

We gonna bring our music to the next level  
(NEXT LEVEL)  
We gonna hit the last phase and beat the devil  
(BEAT THE DEVIL)

Go hard  
and free your mind  
Rise up  
Leave your thoughts behind

By trial and error  
We keep up on this grind  
Never stop the hustle  
Your future will be bright

### **12. Reality\***

You should often take a break from life  
Enjoy the moments and feel good inside  
If there's a shot just take it  
The world is yours to shape it  
Reality is boring and it's time to escape it

Forget about your problems and set yourself free  
Listen to your instincts and follow your dreams  
If there's a shot just take it  
The world is yours to shape it  
Reality is boring and it's time to escape it

### **13. Left behind**

Mistake after mistake  
I don't take any chances  
You think that I'm afraid  
I've been breaking all your asses

Whatever my plan may be  
I keep it in my mind  
But when I count one two three  
You will be left behind

#### **14. Thrill\***

Sometimes I feel the fire burning under my skin  
The anger deep inside me makes my blood extremely thin  
I feel so very tired and my body is really weak  
I guess it's time for me to stand and go completely freak

Serenity and peacefulness is what I only seek  
I put my mind into rest and stay entirely chill  
In all my life I chase a goal that I cannot fulfill  
So maybe it's time for one big change, it's time for a thrill

#### **15. The Ride\***

I'm repping the city  
I'm switching ma style  
I am the gamechanger  
Dont act so wild

You think you're something  
This is the biggest lie  
Prepare for trouble  
I'm taking you on a ride

#### **16. Destroy the Elite\***

Be brave  
Dont listen to what people have to say  
Embrace  
Your dreams and they will never fade away  
Stand strong  
And others will be following your lead  
You're young  
So come with us let's destroy the elite

#### **17. Chants**

Ah  
Yeah  
Uh  
Let's go  
Hey  
Oh  
Huh  
Ha  
Switch

*\* No triplets version included.*
